Introduction

Haz-Flex range of LED hazardous area lighting products are an innovative range of flexible strip lights that have been designed specifically for use in potentially explosive atmospheres (Class I Division 2 Groups A, B, C,D) and harsh/rugged environments. .

The products covered in this specification are for ceiling, wall and surface mounts. Haz-Flex LED Low Voltage Flexible Light are designed for damp/wet locations with it's IP67 water protection rating combine with a impact resistance rating of IK10 Haz-Flex is designed in accordance with the Canadian Electrical Code, Part I (CEC), CSA C22.1, with the U.S. National Electrical Code (NEC), ANSI/NFPA 70 and other local codes.

The Haz-Flex white strip light can be used to provide daylight spectrum light for continuous lit areas or be used to light specific equipment where white, Red, Green, or Amber. versions are designed for use as part of a safety system.

The Haz-Flex strip lights have a long-life span (50,000 hours plus), low energy consumption, and are highly energy efficient.

1. Functions & Features

1.1 Product Features

1. High quality and high brightness SMD LED chip.
2. Variety of monochromatic lights for option including White, Red, Green, Amber.
3. UV resistant construction.
4. Power range 2.5W to 100w.
5. High color consistency & uniformity.
6. Rated input voltage 48v, 36v, 24v DC.
7. Injection molded silicone front connector and end cap.
8. IP67 (Damp/Wet) Location.
9. Environmentally friendly & energy efficient.
10. Automated production, high reliability & long warranty.
11. Long-life span (50,000 hours+).

1.2 Minimum Bend Diameter

The light can only be bent along the light surface.

Do not bend smaller than allowed minimum bend diameter.

2. Technical Data

2.1 Haz-Flex LED flex linear light

Rating	Class I Division 2 Groups A, B, C, D
Operating temperature range	-25°C~55°C
Dimension	W20mm*H10mm
service environment	IP67 (Damp/Wet) Location
Impact strength	IK10
Standards	UL 844 , CSA C22.2# 137
Weight	285g/m

3. System Components

3.1 Haz-Flex LED Flex Linear Light

3.1.1 Dimension

Cross Section of Light (mm)

Item	Figure	Description
Injection-moulded Front Connector(top end)	<p>Technical drawing of the front connector. It shows a side view with dimensions: 20 (width), 12.5 (height), 17 (total length), 12 (length of the main body), 15 (length of the cable), 14 (cable diameter), and 25 (total length including cable).</p>	Connect light to power supply with pre-installed front feed cable, IP67.
Injection-moulded End Cap	<p>Technical drawing of the end cap. It shows a side view with dimensions: 20 (width) and 12.5 (height).</p>	Pre-installed termination protection of the light, IP67.

Note: Unless otherwise stated, the tolerance of the connector is ± 0.5 mm.

3. System Components Cont.

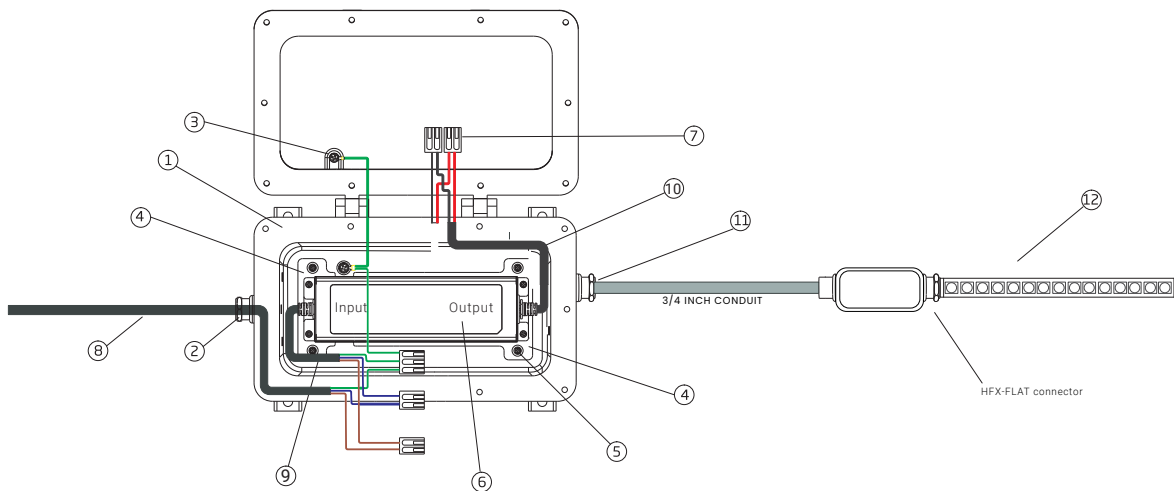

Note: The following wiring diagrams are applicable to DC-type of Heavy Duty or Hazardous location applications.

3.1.2 Exploded-view Diagram

No.	Part name	No.	Part name
①	Enclosure (Options for Hazardous-rated & standard industry rated)	⑦	Terminal block
②	¾" Hub	⑧	Conduit
③	Grounding terminal	⑨	Input power cord of the LED power supply
④	Back panel	⑩	Output cord of the LED power supply
⑤	Fastening screw	⑪	HFX-C1D2-CONNECTOR
⑥	LED power supply (Class 1, Div 2 Haz-Location)	⑫	Haz-Flex

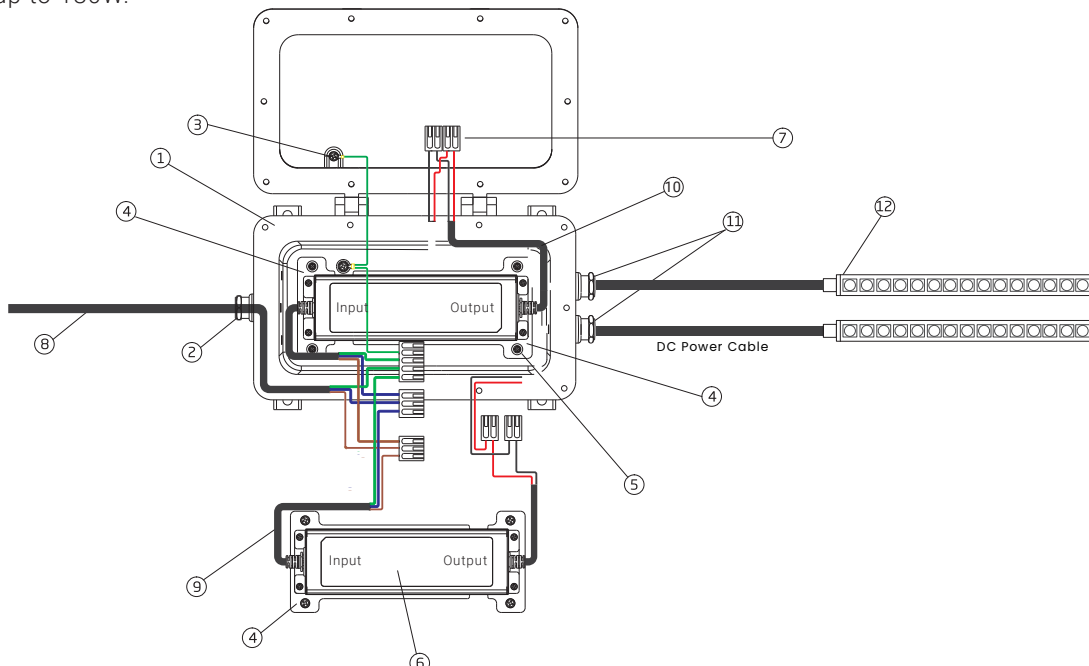

a. Method 1 - Wiring Example: Utilizing a conduit system

Single Driver Box - When the enclosure contains only one power supply inside, the power supply is allowed to drive lights up to 240W in total.

b. Method 2 - Exposed Cable System

Double Driver Box - In the case the enclosure contains two power supplies, each is only allowed to drive lights up to 180W.

Please conform with local inspector that cabling and conduit meets code requirements

3.1.3 Product Nomenclature

Example:

HFX - A-DC - 84 - SD - W - 16

Series	Voltage	LEDs/meter	CCT	Light Color	Light Length (meters)
HFX Class 1 Division 2 Groups A,B,C,D	A = 24V DC	84	SD = 6500K	W = White	See Light Length Chart
		70	S = 3000K	R = Red	
		56	I = 4000K	G = Green	
		42	C = 5000K	A = Amber	
	B = 36V DC	88	SD = 6500K	W = White	
		66	S = 3000K	R = Red	
		44	I = 4000K	G = Green	
		22	C = 5000K	A = Amber	
	C = 48V DC	84	SD = 6500K	W = White	
		56	S = 3000K	R = Red	
		42	I = 4000K	G = Green	
		28	C = 5000K	A = Amber	

Light Length Chart: Light Length corresponds to the values the chart

Max Run Length	LEDs/meter	Light Color	Rated Power	Max Run Length	LEDs/meter	Light Color	Rated Power		
A	8m (24.2ft)	84	White	Max.96W	B	8m (24.2ft)	88	White	Max.96W
	10m (32.8ft)	84	Red/Green/Amber	Max.100W		10m (32.8ft)	88	Red/Green/Amber	Max.100W
	10m (32.8ft)	70	White	Max.100W		11m (36.1ft)	66	White	Max.99W
	12m (39.4ft)	70	Red/Green/Amber	Max.100W		13m (42.7ft)	66	Red/Green/Amber	Max.97.5W
	12m (39.4ft)	56	White	Max.96W		16m (52.5ft)	44	White	Max.96W
	15m (49.2ft)	56	Red/Green/Amber	Max.100W		20m (65.6ft)	44	Red/Green/Amber	Max.100W
	16m (52.5ft)	42	White	Max.96W		32m (105ft)	22	White	Max.96W
	20m (65.6ft)	42	Red/Green/Amber	Max.100W		40m (131.2ft)	22	Red/Green/Amber	Max.100W
	C	8m (24.2ft)	84	White		Max.96W	Notes:		
		10m (32.8ft)	84	Red/Green/Amber		Max.100W	• Longer lengths are available at lower wattage, please contact manufacture for inquiries.		
12m (39.4ft)		56	White	Max.96W	• If UL 844 is not required, longer lengths are available, please contact manufacture for inquiries.				
15m (49.2ft)		56	Red/Green/Amber	Max.100W	• Each strip is cut to length at the factory. Strips can be shorten in the field. A silicone cap is available to install after length is adjusted.				
25m (82ft)		28	White	Max.100W	• Field modification cannot be done on the power feed side of the LED strip, or else UL 844 certification will be void.				
30m (98.4ft)		28	Red/Green/Amber	Max.100W

3.2 Power supply requirements

Lights are for use in Hazardous locations and supplied by SELV power unit that are intended for installation adjacent circuits of 600 V nominal or less between conductors in accordance with the Canadian Electrical Code, Part I (CEC), CSA C221. With the U.S. National Electrical Code (NEC) ansunpa 70 and other local codes.

4. Mounting Profiles

4.1 Stainless Steel Channel

Engineered for the safe and quick installation of Haz-Flex Explosion-Proof LED Strip. The Haz-Flex LED strip fits firmly in the channel, preventing it from falling off the mounting track when vibration occurs.

Accessories are available for either screw mounting or strap mounting. The channel and accessories, are made of corrosive resistant 316L stainless steel, and has been salt spray tested.

Please refer to installation instructions.

Test Object	No.	Experiment Item	Standard
Metal Parts	1	Weather Resistance: Salt Spray Tested	IEC68-2-11
Mounting profile	2	Clamping force	Haz-Flex-defined

Dimension: mm

Tolerance: $\pm 0.2\text{mm}$

ItemCode	Standard Length	Slotted Hole
HFX-Channel	500mm/19.68in	4*10mm/0.16*0.39in

Installation Instructions

Components:

Stainless Steel Mounting Track

Stainless Steel Cable Tie
(silicone anti-skidding sleeve included)

Joining Bracket

Clip
(silicone protective sleeve included)

Screw

Step 1 Profile Coupling

Suitable for Both Installation Ways

Installation Way ① Screw Mounting

Step 2

Mark the mounting positions and tighten the screws.

Step 3

Put the light in and fix it in position with the clip.

Installation Way ② Strap Mounting

Step 2

Bounding Support Bar or Tube

Thread the strap through the mounting track and then cover it with silicone anti-skidding sleeve. Pay attention to the direction when strapping it in.

Step 3

Insert the cable tie into the strap wrench. Then press the wrench tightly and take care not to damage to the track.

Step 4

Put the light in and fix it in position with the clip.

4.2 Suspension Kit

This simple but useful device for suspension lighting, the flexible design allows of screw-less installations. making it portable and reusable. The mounting height is adjustable by positioning the bolt and cutting to length.

The bracket is made with corrosive resistant 316 stainless steel, and has been salt spray tested.

Please refer to the installation instructions.

Test Object	No.	Experiment Item	Standard
Metal Parts	1	Weather Resistance: Salt Spray Tested	IEC68-2-11
Mounting profile	2	Clamping force	Haz-Flex-defined

Dimension: mm

ItemCode

HFX-S/KT

Installation Instructions

Please read instructions carefully before use.

Step 1

Rotate the safety lock outwards and put the LED strip in the J-hook.

Step 2

Rotate the safety lock back to press the led strip in tightly.

Step 3

Wind the wire rope with the locking knob around the support.

Step 4

Thread the locking knob of wire rope through the round hole.

Step 5

Move the wire rope forward to the end along with the arrows aside.

Step 6

Pull the wire rope to adjust the height as desired.

Step 7

Cut or roll the excess wire rope.

NOTE: The recommended quantity is 3pcs for every meter or adjustable based on the specific case.

Tip

Push in the plunger of cable gripper to pull out the wire rope if needed.

6. Appendix

6.1 Certifications of Light

Explosion-proof Regulation Compliance

Certification Authority-TUV

- EU-TYPE EXAMINATION CERTIFICATE of Equipment or Protective System intended of use in potentially explosive atmospheres as per Directive 2014/34/EU.
Certificate Number TUV IT 19 ATEX 086 X of compliance with EN IEC60079-0; IEC60079-18;EN 60079-28.
- PRODUCTION QUALITY ASSURANCE NOTIFICATION of Equipment to be used in potentially explosive atmospheres as per Directive 2014/34/EU Notification Number TUV IT 19 ATEX 087Q.
- IECEx CERTIFICATE of CONFORMITY of Equipment intended of use in potentially explosive atmospheres.
Certificate Number: IECEx TPS 19.0047 X of compliance with IEC60079-0; IEC60079-18

Low Voltage Device Compliance

Certification Authority-SGS

- CE VERIFICATION of LVD COMPLIANCE of Haz-Flex LED Flexible Strip Light as per relevant ECDirectives.
Verification Number GZES2012034953LMof compliance with EN60598-1; EN 60598-2-21; EN 62493.

EMC Compliance

Certification Authority-SGS

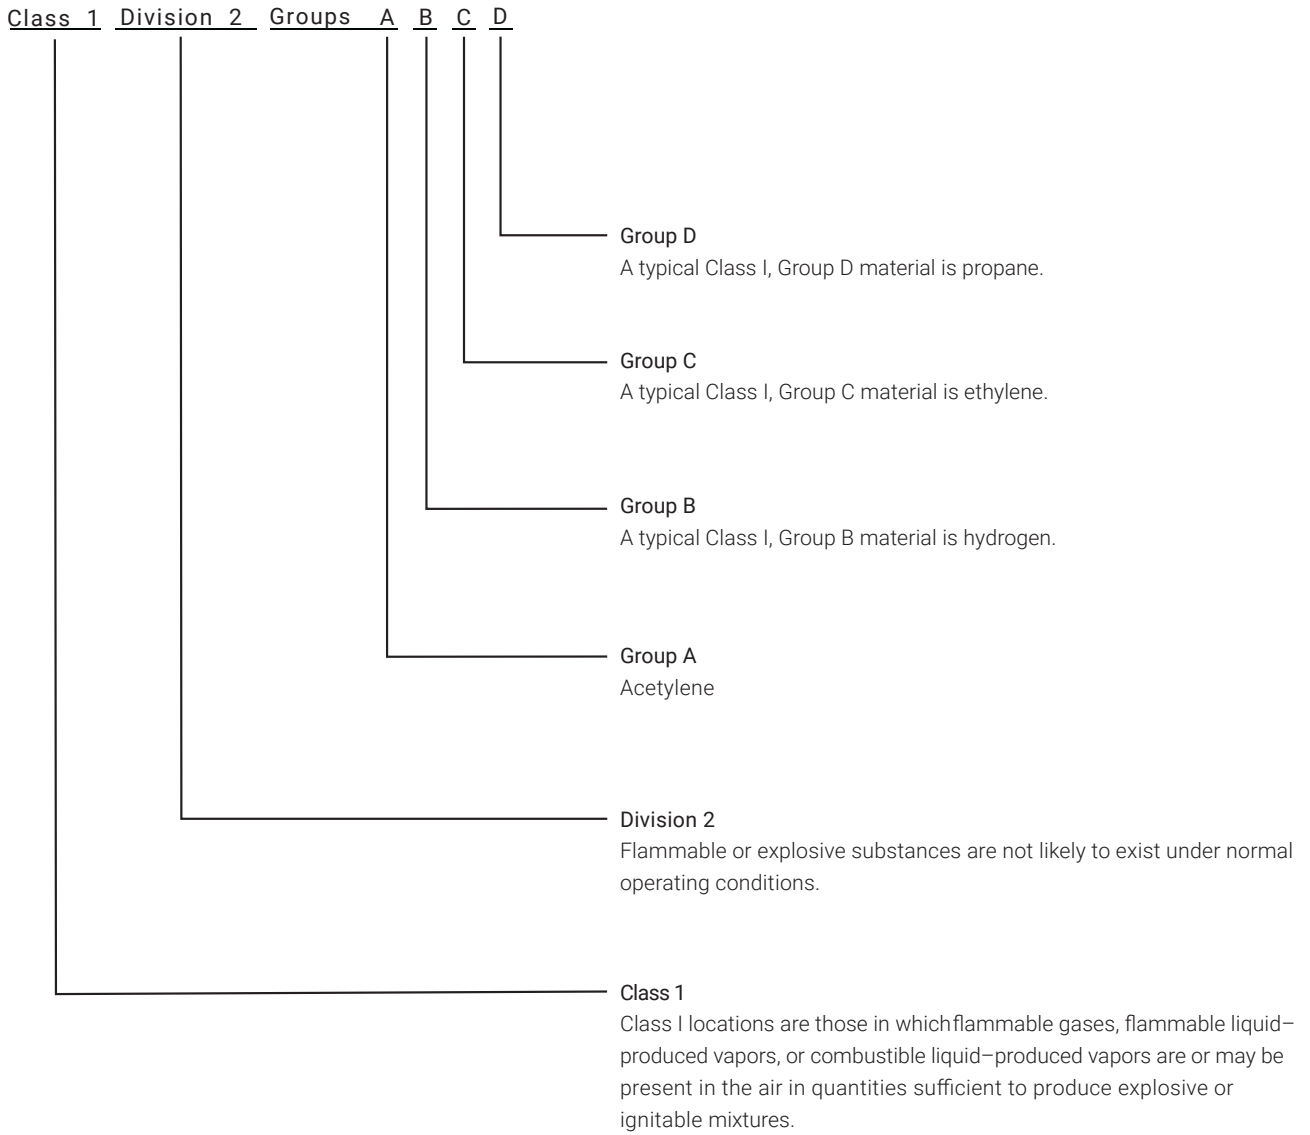

- VERIFICATION of EMCCOMPLIANCE of Haz-Flex LED Flexible strip Light as per Directive 2014/30/EU.
Verification Number **GZEM2106003865LMV** of compliance with EN55015; EN61547; EN61000-3-2;EN61000-3-3.

ROHS Compliance

Certification Authority-SGS

- VERIFICATION of RoHS COMPLIANCE of Haz-Flex LED Flexible Strip Light as per RoHS Directive EU 2015/863 amending 2011/65/EU. Certification Authority - SGS

6.2 UL 844 Explanation

7. Light Distribution

Tunnel Illumination Example

Tunnel Illumination Example

- Height of tunnel: 6 meters
- Installation position: 3.75 meters high
- Lumen target: 3.8 lux at ground level.

Product Solution

Solution:

- 3W, 22LEDs/m, DC36V

Simulated data		
Position	Average brightness	Average lux
