FEATURES

Horizontal and vertical models available in 6" and 8" configurations.

All units offer 120V/277V dual voltage flexibility.

27" heavy-duty, straight steel hangar bars provide for fast and secure installation.

Fully adjustable hangar bar mounting ears to handle all variable mounting height applications. Can also be used with 1/2" conduit as the mounting bar support.

Junction Box is UL listed for through-branch circuit wiring and has 1/2" KOs, in addition to four Romex KOs with strain reliefs.

Ballast and Junction Box are accessible from below.

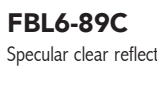

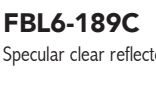

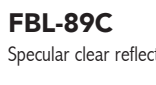

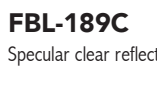

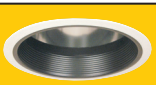

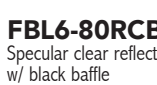

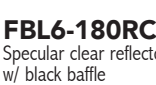

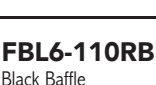

Top-Quality electronic HPF ballast by Advance Transformer.
